PROFESSIONAL PROFILE

Sociologist specialised in social research, with expertise in quantitative, qualitative, and mixed methods, and the ability to design and develop full-stack digital products with AI integration. Author of the Master's dissertation «*Analysis of the Resignification and Reconfiguration Project of the Spaces at the Faculty of Social Sciences and Communication of the UPV/EHU*». I combine the critical-analytical perspective of sociology with the technical capacity to build digital products at the intersection of social sciences and technology.
